

ROY D. MERRITT FOR U. S. PRESIDENT
CAMPAIGN SPEECH # 44

- Hello, I'm Roy Merritt and I am running as a candidate for the presidency of the U. S. A. in 2024
- I had what appeared to be another attack on my health and life last evening and through the night
- This, and prior incidents and episodes like this, show what I am up against in running for the presidency of the U. S. A.
- I did not want to run for president from the start of my campaign. As I reported to the American people, I was forced to do so by the people of my community—my university (NMSU), my town and city, my County and my State—New Mexico
- In one of my recent prior speeches, I said that I was not necessarily running for president to win. I really have no political ambitions per se. I am not, and I have not been, a politician. I have always cared deeply about politics however, in the sense that I always wanted politically what I perceived as best for my country
- I am running for president against my State—New Mexico. Obviously, I am in a very vulnerable position, and am in serious peril from many forces of evil around me. There are deep and dark forces throughout our nation that want to prevent me from running for President of the U. S. A.
- There is no one that I know of that wants me running for the office of President of the U. S. A. I have no support of any kind that I can perceive. I haven't had a single individual come forward to tell me that he or she

was backing my campaign and was supporting me for President in the 2024 campaign. I have had no donations to my campaign to date. I have been unable to go on the road to campaign nationwide, although I prepared myself to do so from the start

- The 4th estate—including the WWW and all other entities thereof—do not want me running
- There is no one in government at any level that wants me running
- There is no one in the political establishment—including the political parties—that want me running. Their only concern is that I am an embarrassment to them, largely because I am honest and speak the truth
- There is no one referred to by name in my platform composed now of some 44 speeches that wants me running
- However, I am a patriot—perhaps the “Last American Patriot”—and that is why I am running. I feel that my country needs me, and therefore I must come forward and volunteer to serve whether I want to or not
- I am running for the majority of the American people, all of the other States of the Union besides my home state and state of residence—New Mexico
- I believe that most of the people in the States that I lived and worked in during my lifetime want me to run. These states include TX, NY, AK, MN, NH, IN, KY, WY, and WV. I also believe that the other remaining States of the Union want me running

- I have received threats and warnings from many sources, including the most serious from members of my own family—anyone and everyone. Of course, as I have said before, everyone in my life is a Democrat except for me. And the Democratic Party is now overrun with terrorists and traitors. I believe that the Democratic Party at one time was good and supported our nation but that is no longer the case

- I am a Conservative, and have been a member of the Republican Party throughout my life, but I am the only one on either side of my family. I have previously reported that my wife and all of the members of her family are life-long Democrats to my knowledge

- From the very beginning, I have told the American people that I will need their help and support if I am to be successful

- I have asked for help and protection before for myself and my family from the federal government. But as I am essentially running against the current administration at the federal level, including the President and the Vice President, whom I perceive as terrorists and traitors to our nation, I am highly unlikely to garner any support from any agency of the federal government during my campaign

- However, again, if there are agencies, departments or other entities of any kind at the federal level that can come forward to protect me and my family, presumably behind the scenes, I would be eternally grateful

- The current 2024 campaign for the presidency is likely the most important in the history of our country

- I have said before that I feel my country is in deep trouble and dire straits at the present time for many reasons, some of the causes of which

are not evident to the American people

- I have previously reported that I feel there are *coup d' é tatist* forces that are currently seeking the overthrow of the U. S. government
- I am asking that all the American people fly the American flag proudly over the upcoming holidays—over Christmas and through New Years' Day, 2024—as a gesture of support for my campaign. We should all be proud of “Old Glory,” support it wholeheartedly, and come to its defense always
- There are now forces in our nation that are against the birth and history of our country, against our founding documents and founding fathers, counter-revolutionaries against our original Revolution of 1776 and the Declaration of Independence, many who are against the U. S. Constitution and of its guaranteed freedoms, rights and protections for all the American people that are contained therein
- There are large groups of people in our country who pretend to be non-discriminatory, but who are in fact the most discriminatory people on the face of the earth, especially when it comes to White, Anglo-Saxon Protestants. It seems that everyone should be proud of their ancestry and heritage except WASPs. For example, when have you ever heard a television public-service announcement celebrating WASP heritage month? Although WASPS founded this nation, we are despised and denigrated on all fronts
- I am Roy Merritt, and I am running for the office of President of the U. S. A. in 2024. Thank you very much, and may God bless and protect the U. S. A.
