

**ROY D. MERRITT FOR U. S. PRESIDENT  
CAMPAIGN SPEECH # 28**

- I'm Roy Merritt and I'm a candidate for the President of the U. S. A. in 2024
- The U. S. A. is fast becoming the most terroristic state on earth
- In order to be considered terrorism, terroristic acts need NOT be directed against people from other countries
- Terrorism can be directed against your neighbors in your own community, for example
- The transition of the U. S. A. to terrorism has been a slow, inexorable, and insidious process that began with policies and actions of the Democratic Party many, many years ago
- It is likely that the last GOOD Democratic Party president was John F. Kennedy, elected to office in 1960
- The trek toward terrorism and a terrorist state initially began with the Democratic Party's open-door policy allowing people from other countries to enter, and eventually to "invade," the U. S. A. unhindered
- That policy itself was an act of terrorism directed at other political parties, including the Republican and Conservative Parties, and the nation as a whole
- It was, in fact, not only terroristic but also revolutionary, or counter-revolutionary, seditious, anti-democratic, anti-Republic, anti-Constitution, anti-law and order, anti-freedom, anti-Bill of Rights, and also anti-civilization, in many respects
- This process has proceeded since that time—mid-1960s—to where we are today
- The then-contemporary Republican Party under Barry Goldwater tried to move the country very Hard Right in 1964, but that initiative was thrust back, with the election of "Guns-and-Butter" Lyndon B. Johnson
- Johnson turned out to be a mixture of good and bad for the Democratic Party and the nation, but in hindsight, was likely the cradle of the terroristic Democratic Party that has turned into the counter-Revolutionary, terroristic, *coup d' é tatist*, anti- U. S. Constitution, anti-freedom and anti-Bill of Rights Democratic Party we have today

- I estimate that, *per capita*, the U. S. A. now has more terrorists as regular, ordinary citizens than any other nation in the world
- Of course, this is largely due to population increases in the southwestern U. S. A. from Mexico, Central and South America—people from 3<sup>rd</sup>-world countries without any understanding of the founding “ideals” and “principles,” the Constitutional freedoms, rights, and protections guaranteed to U. S. citizens, and a general disinterest in integrating into the ways of life and living in the U. S. A.
- Based on my earlier speeches, you know that I have great respect for John F. Kennedy’s plea to the American electorate in 1959, that is—“ask what you can do for your country, not for what your country can do for you”
- This is a selfless, unselfish proposal meant to motivate individuals to think beyond themselves and their own self-interests
- This latter notion reached a previous high in the candidacy of Republican Senator John F. McCain for U.S. President on 2008
- At its most basic level, terrorism and selfishness are tied together very intimately
- As you know, I have accused the local citizens here in Terror Valley, New Mexico of not only being terrorists, but also of being the most selfish people in the world
- Terrorists and selfish people are only interested in what is good for themselves
- They tend to place way too much emphasis on “money” as being the most important aspect of a good life
- Selfish people, over time, tend to adopt whatever tools are necessary and essential to gaining them whatever they want
- They will ultimately do anything, including coercion, force, threats, warnings, criminal acts such as scamming, bribery and extortion, vandalism, terrorism, etc., to gain their goals
- As you already know, I have reported to the nation and the world, that my wife and I, living here in Las Cruces and Doña Ana County, New Mexico have been subject to innumerable acts of terrorism over the past three-plus years
- Terrorism and terroristic acts have essentially destroyed our lives here in New Mexico

- As a result, New Mexico has been declared by me to be the first Terrorist State of the U. S. A.
- Our home here in Las Cruces is located across the road from a terrorist camp, which I have dubbed for lack of a better name—"Terror Valley"
- Terror Valley is found in the County of Doña Ana, New Mexico, which I have named a major terrorist organization—worse in many ways than the PLO, Osama bin Ladin, Adolf Hitler, and Benito Mussolini
- New Mexico is a majority Hispanic State, population-wise, and almost all of these Hispanics belong to the Democratic Party
- Because U. S. Democrats long-ago began their support for an open-doors policy for Hispanics coming into the U. S. illegally, and eventually freely "invading" our nation, these immigrants learned very quickly that they had to support and vote for Democrats in order to achieve their goals, and seek to obtain a better life for themselves and their families, forcibly
- The eventual invasion of these Democratic Party Hispanics to the southwestern U. S. A. over the past few decades have turned over the U. S. A. into something it never should have become and never wanted to be
- As a result of this invasion, New Mexico and the U. S. A. now have the largest number of terrorists of any other region in the world
- Terrorism has become a way of everyday life and living in the U. S. A.
- The Democratic Party has now morphed into the "Party of Terrorism" and has now made itself "defunct" as a political party in the U. S. A.
- This is due to its lack of support for the U. S. Constitution, Bill of Rights, "small-d" democratic principles, a Republic form of government, and law and order
- Of course, Traitor Joe Biden, is now the head of the Democratic Terrorist Party in the U. S. A.
- The Vice President is a Hispanic revolutionary *coup d' é tatist* from the State of New Mexico, which is leading the way in the Terrorist movement as a way of life and living in the U. S. A.
- Many other State and federal-government leaders of the Democratic Party in the U. S. A., including Attorneys General, should be considered terrorists, traitors, and

*coup d' é tatists*, interested in overthrowing the U. S. government and instituting a one-party, authoritarian, dictatorial government that could force-feed its ultra-liberal, Leftist principles and dicta, like multiculturalism, multilingualism, and the Spanish language down the throats of the American people

- This movement has also been largely fostered and facilitated by American academia, which is ultra-liberal, anti-“small-d”-democratic, pro-government overthrow, anti-Constitution, anti-Bill of Rights, anti-Conservative, anti-freedom, anti-American, anti-patriotism, anti-ideals and principles of America’s Founding Fathers
- American academia only supports very selfish, radical, Far-Leftist, socialistic, Communistic policies of the Democratic Terrorist Party
- American academia, including near-border universities like New Mexico State University, Hispanics, Democrats, terrorists, traitors, and revolutionary *coup d' é tatists* are destroying the U. S. A.
- The U. S. A. today, as I have stated before, is in deep, deep trouble
- We are on the wrong track; it seems that we are always on the wrong track
- We are now a terrorist country moving toward our own self-destruction
- In 1787, Benjamin Franklin responded that America was a republic if we could keep it
- It appears to me now that we will not be able to keep it
- The “Great American Experiment” may almost be over, and ending in abject failure with the loss of the originally great and promising ideals and principles of our Founding Fathers, the Declaration of Independence, the U. S. Constitution and Bill of Rights, democracy and a republic form of government
- The terrorism and selfishness of the Democratic Party are destroying America
- We are currently in the throes of death and moving rapidly toward *rigor mortis*
- Thank you very much
