

**ROY D. MERRITT FOR U. S. PRESIDENT  
CAMPAIGN SPEECH # 9**

- **You should not look to money as the source of the good life.**
- **You should not cheat, cut corners, or break the laws of our country in order to have more money or a better life.**
- **You should not think that more money will necessarily provide better and more enriching lives for your children.**
- **Don't feel that you need to emulate people with huge houses, large expensive vehicles, and more and more children for you or the State to provide for.**
- **Neither you nor Planet Earth can take it any longer.**
- **Instead, look for the sources of a good life in more meaningful things like: (1) A happy relationship; (2) A fulfilling job that makes you happy; (3) Seek pleasure out of the smaller things in life.**
- **Don't think that a 40-room house will make you happy. It won't.**
- **Don't think that a large family with 10 children will make you happy. It won't.**
- **Don't think that a \$100K new luxury pickup truck will make you happy in life. It won't.**
- **The Earth can't take it, and neither can you.**
- **People in other countries like Mexico and countries in Central and South America should not look to the U. S. A. as the source or definition of a happy life any longer.**
- **Make the most of the life you have been given by God where you were born and are living.**
- **Help those around you wherever you live in the world.**

- 
- Look at what many people in the U. S. A. have and also at how unhappy, unfulfilled, and how miserable they are.
  - The people of Crime Valley, New Mexico are the most miserable people in the world.
  - Don't turn to a life of crime, vandalism and terrorism to have a better life.
  - Many people in the U. S. A. are looking at the wrong things to make them happy.
  - You here in southern New Mexico are looking to the wrong things to make you happy.
  - A 40-room house with 12 bathrooms will not make you happy and fulfilled in life.
  - More money, more kids, a bigger house, a luxury vehicle, being rich will not necessarily, or even likely, make you happy and fulfilled in life.
  - Put in the time, energy, and work needed to succeed. Pay your dues! Get the education you need to succeed in America, including a good command of the English language. Don't cheat, cut corners, or break the laws of the U. S. A. to get ahead. Don't turn to crime or terrorism to get what you want.
  - In the long run, having more, and more, and more will not make you happy.
  - Get joy from learning, reading, growing, creating, inventing, etc. Be kind to other people. Respect your elders.
  - Don't feel that you need a high-paying job to be happy.
  - Stand by your work---whatever it is. Be proud of your work. Sign your name to your work.

- Yesterday, I had a local business throw me out. They have a sign up that they reserve the right to refuse business to anyone. No, you don't. Not in the U. S. A. You cannot discriminate. Citizens of the U. S. A. have certain guaranteed rights, freedoms, and protections. Just because it may not be good business for you doesn't mean you have the right to discriminate.

- In my view, you are now, and certainly will be, after the election, a traitor and terrorist to the U. S. A. Your license to do business in the U. S. A. will be suspended. You will be either expatriated or hung as a traitor and terrorist to the U. S. A. Start making your plans now. If you need to, put your house and/or business up for sale.

- We cannot and we will not have traitors and terrorists to the U.S.A. in our country. Period! Get out now or be forced out.

- Thank you.
