ROY D. MERRITT FOR U. S. PRESIDENT CAMPAIGN SPEECH # 16 (SPECIAL ADVISORY STATEMENT)

• As with all of my speeches, my statement today is as a candidate for the presidency of the U. S. A. in 2024

• I am hereby asking that a formal investigation be begun by the appropriate agency or agencies of the federal government to determine if an active conspiracy is in operation to overthrow the U. S. government that reaches to the highest level, and may involve one or more agencies as well as the executive branch

• If in the works, the conspiracy may involve the President of the U. S. A., or he may very well be a dupe to the whole plot that would most likely involve the Vice President, the Governor of New Mexico, and possibly others in the executive branch at the N. M. State and Federal level. It may also involve individuals of the two highest level educational institutions in the State of N. M.

• Individual officials at all levels of government in the State of N. M., and the highest level law enforcement at least in N. M., and perhaps at the federal level are likely involved in the plot that will come to planned fruition at either the death or non-reelection of the President of the U. S. A., or at the ascendancy of the Vice President into the office at the death of the President. It could also very well happen if former President Donald Trump is re-elected, and prior to his re-assumption of the position

• The conspiracy, if it is active, may have been in motion for many years, or it may have begun near the end of the Trump Presidency (late December 2020)

• Again, the existence of this conspiracy is highly speculative and is based on suspected terrorist *actions and inactions* of Democratic Party operatives in New Mexico since my return to the State in early 2020, *actions and inactions* of high-level government officials at the State and County levels in New Mexico, and of law enforcement *actions and inactions* in New Mexico at city, County, and State levels

• I do not suspect that former President and 2024 candidate for re-election, Donald Trump, has any knowledge of the conspiracy, if again, it actually exists in reality

• Thank you again very much
